

# SRAVANI KADIYALA

Data Analyst | Healthcare & Business Intelligence Analytics

United States · kadiyalasravani221@gmail.com · (270) 992-2637

[LinkedIn](#) · [GitHub](#) · [Portfolio](#)

## PROFESSIONAL SUMMARY

Data Analyst with a Computer Science foundation and hands-on experience turning large, messy datasets into decision-ready insights across healthcare and business operations. Skilled in SQL, Python, Power BI, Tableau, and advanced Excel — building predictive models, ETL pipelines, and executive dashboards that drive measurable outcomes. Recently surfaced \$1.17M in recoverable revenue from 110K+ healthcare records and \$3.8M in penalty exposure from 180K+ logistics records. Partners with stakeholders to translate analysis into clear, actionable decisions.

## TECHNICAL SKILLS

**Languages & Querying:** SQL, Python (Pandas, NumPy)

**BI & Visualization:** Power BI, Tableau, Chart.js, Advanced Excel, Dashboard Development

**Analytics:** Data Analysis, Predictive Analytics, Statistical Analysis, Healthcare Analytics, Forecasting, KPI Reporting, Root-Cause Analysis

**Data Engineering:** ETL, Data Cleaning, Data Modeling, Reporting Automation, Data Integrity

**Workplace:** Requirements Gathering, Stakeholder Communication, Cross-Functional Collaboration, Process Improvement

## PROFESSIONAL EXPERIENCE

**Healthcare Data Analytics Extern** — TruBridge | United States | 2026 – Present

- Apply SQL, Python, and BI tools to real-world healthcare datasets, building analytics workflows and dashboards that support clinical and operational decision-making.
- Translate raw healthcare data into KPI reporting and visualizations that surface care gaps, utilization patterns, and revenue-impacting trends.

**Data Operations Analyst** — Government Ration Shop (Public Distribution System) | India | Jan 2019 – Jun 2021

- Processed and reconciled monthly distribution transactions for 100+ households with zero allocation errors over two years, maintaining data integrity across a high-volume supply-chain platform.
- Verified records against compliance standards and flagged discrepancies before they impacted distribution, strengthening reporting accuracy and audit trails.

**Data & Inventory Analyst** — Family Retail Business | India | Jan 2015 – Jun 2021

- Analyzed sales, inventory, and demand across 200+ product lines, applying trend analysis and forecasting to guide restocking and reduce overstock.
- Built and automated reporting that migrated operations from manual records to digital, improving data quality and reporting speed.

**Secretary** — Indian Student Association, Murray State University | United States | Feb 2025 – Present

- Built Excel-based tracking and reporting dashboards for 100+ members across 5 teams, standardizing data collection to support leadership decisions.

## KEY ANALYTICS PROJECTS

**Healthcare No-Show Intelligence** — Python · Tableau · Predictive Analytics | [Live Demo](#) · [GitHub](#)

- Built a predictive analytics solution on 110,000+ appointment records, identifying \$1.17M in recoverable revenue and the leading drivers of patient no-shows.
- Delivered an interactive dashboard enabling scheduling and operations teams to target high-risk appointments and reduce no-show rates.

**FourMode Transportation Intelligence** — Python · JavaScript · Chart.js · ETL | [Live Demo](#) · [GitHub](#)

- Engineered Python ETL pipelines converting multi-source datasets into structured JSON, powering a 5-page executive platform across Road, Air, Rail, and Maritime modes.
- Built composite network-health scoring and cross-mode KPI comparison, deployed live via Netlify for self-service analysis.

**Supply Chain Logistics Intelligence** — SQL · Python · Tableau | [GitHub](#)

- Analyzed 180,000+ shipment records, uncovering a 45% on-time delivery rate vs. a 90% SLA target and isolating three routes driving ~60% of delays via root-cause analysis.
- Quantified \$3.8M in quarterly penalty exposure and built a Tableau executive dashboard with route-risk analysis, carrier benchmarking, and delay heatmaps.

## EDUCATION

**B.S., Computer Science** — Murray State University, United States | May 2026

**B.Tech (Hons), Data Science & Data Engineering** — Lovely Professional University, India | May 2023
